

4th International Conference on Electrospinning 2016

Electrospin 2016

June 28 - July 1, 2016, Basiliani Resort, Otranto, Italy

Electrospin 2016 follows the previous Conferences in the Series which took place in Melbourne, Jeju, and San Francisco. This biennial event has become the premiere venue for the presentation and discussion of the most recent scientific and technological advances in the areas of electrospinning, polymer nanofibers, and related applications.

The conference will provide a dedicated platform for students, researchers, and engineers from both academy and industry to exchange knowledge in this continuously growing and interdisciplinary field. Topics of interest include, but are not limited to, material development, polymer, ceramic, metal, and nanocomposite nanofibers, green materials and sustainability, theoretical and simulation methods for electrospinning and for predicting nanofiber properties, filtration and textiles, applications in tissue engineering and biomedicine, mechanical properties of nanofibers and nanowires, optical and electronic properties, smart wearables, new materials for energy harvesting, management and storage.

SPONSORSHIP FORM

Various levels of sponsorship are possible for Companies, Public Bodies, and Organizations, depending on your own marketing strategies. The following are typical options:

1) Conference Sponsors directly support Conference-related costs. They do not directly support the Conference Committee, but cover costs directly to suppliers. Amount is variable. This option will include the presence of the Sponsor Logo on the Electrospin 2016 website and in the conference program distributed to participants.

2) Program Sponsors directly support the Conference Organization for costs related to Invited Speakers - **1000 Euros**
This option will include the presence of the Sponsor Logo on the Electrospin 2016 website and in the conference program distributed to participants.

3) Gold Sponsor (Exhibitors) - 2000 Euros
This option will include the presence of the Sponsor Logo on the Electrospin 2016 website, one (1) single sheet insert (provided by the Sponsor) in the participant conference bag, one (1) dedicated b/w page in the conference program distributed to participants, and one (1) dedicated table for exhibition nearby the conference registration area and technical sessions.

4) Platinum Sponsor (Exhibitors) – 3000 Euros
This option will include the presence of the Sponsor Logo on the Electrospin 2016 website, extra banners in the website pages, linked to the Sponsor website, one (1) single sheet insert (provided by the Sponsor) in the participant conference bag, one (1) dedicated color page in the conference program distributed to participants, one (1) dedicated table for exhibition nearby the conference registration area and technical sessions, and one (1) full conference registration.

For more information, please fill the following fields:

Company Name as it is to appear in the conference website and material:

Contact Person:

Contact Title/Position in the Company/Public Body/Organization:

Email address:

Company/Public Body/Organization Address, including City/State (Country)/Zip:

and e-mail this form to/contact:

Dr. Andrea Camposeo
CNR-Istituto Nanoscienze
Euromediterranean Center for Nanomaterial Modelling and Technology (ECMT)
via Arnesano - I-73100 Lecce (Italy)
e-mail address: andrea.camposeo@cnr.it
